

TRUMAN FACES NEW TESTS ON REORGANIZATION

Washington, May 19 (AP) — President Truman's battered reorganization program faces new tests today in the Senate, where five of his plans to make changes in Federal agencies have died in recent days.

The latest victim was the Agriculture department plan, which was rejected by a voice vote yesterday without a word being said in its defense.

But two other proposals affecting the Commerce and Labor departments survived the tests in the House.

The House action apparently assures that the labor plan will be carried out, since no opposition was sighted in the Senate. But the Commerce plan must survive a Senate vote. After Tuesday midnight it will be too late for Congress to block it.

Also due to come before the Senate were plans for the Federal Power and Trade commissions.

Senator Edwin C. Johnson (D-Colo.), who twice this week has led successful attacks on Truman reorganization plans, said he would call up his FPC and FTC resolutions of disapproval shortly after Senate action on a motion to curb debate on a civil rights issue.

Johnson reacted sharply to criticism leveled by Mr. Truman yesterday at the Senators leading the fight on his reorganization plans.

Mr. Truman had been talking at his news conference about getting rid of "bureaucratic" in Congress. Then he left for his reorganization jobs.

He said you hear a lot of talk about efficiency and economy from some members of Congress, but it doesn't have any effect where local situations are involved.

"I haven't voted against a plan yet that would have saved one thin dime," Johnson told reporters when informed of Mr. Truman's comments.

DEATH

**Mrs. Elmer E. Rinehart**  
Mrs. Mary Catherine Herman Rinehart, 93, widow of Elmer E. Rinehart, Gettysburg R. 4, near Golden's Station, died at 4:30 a.m. Thursday at her home. She had been in ill health the past two years and was bedfast the last year. Mrs. Rinehart was a daughter of the late Joseph and Eliza Guise Herman. Her husband died June 27, 1948. Mrs. Rinehart was a member of the Salem United Brethren church, Golden's Station. Surviving are two children, Mrs. E. H. Pottoff, Gettysburg R. 4, and J. Nevin Rinehart, Hanover; three grandchildren, four great-grandchildren, one brother, Ira G. Herman, New Oxford R. D. 2, and one sister, Mrs. Cora Glaser, Harrisburg. Funeral services on Sunday at 2 p.m. at the Salem United Brethren church. The Rev. Harold March will officiate. Burial in the church cemetery. Engagement

**Wise-Plank**  
Announcements have been received here today of the engagement of Miss Geraldine A. Plank, daughter of C. Roy Plank, Chambersburg street, to Ernest G. Wise, Syracuse university.

Miss Plank is a graduate of Gettysburg high school. Later she graduated as a registered nurse at Sinal hospital, Baltimore. She served several years in the Army Nurses Corps, one year of which she served in England. After the war she took a teacher's course and is now an instructor in nursing in Syracuse.

These pests damage many kinds of vegetable and ornamental plants by gnawing ragged holes in the leaves. Too, they often constitute a nuisance by leaving their slimy trails on porches and walks. If the recommended clean-up does not exterminate them, start direct combat. They may be barred from small flower or vegetable plots by placing an unbroken barrier of air-slaked (builders') lime around the area. This should be 3 to 4 inches wide and a half inch deep. The same remedy may be employed on a larger scale by applying a pound with a duster at the rate of 4 pounds to 100 square yards. In either case the lime should be applied in the evening and renewed whenever it becomes damp.

In severe invasions a poisoned bait may be used, made by mixing one ounce of powdered metaldehyde with 3 pounds of wheat bran. This should be distributed over the infested area in late evening. If formed into small pellets and these placed at intervals of a foot or two where the animals are troublesome, bait will be saved and uneaten pellets may be gathered early the next morning in order to protect birds, poultry and animals from eating the poison.

The couple were attended by Mr. Gerrick's sister, Mrs. Sarah E. Stonerod, Harrisburg, and the bride's brother, Robert Shearer. The couple is now residing in Dillsburg.

Mrs. Gingerick resided for several years at the Willis A. Myers home, Two Churches, near East Berlin.

ELECT PASTOR AT WHITE HALL, TWO TAVERNS

The Rev. Oscar E. Feeman, pastor of St. Luke's Lutheran church, Roaring Springs, was elected pastor of Grace Lutheran parish, Two Taverns, which also includes St. Luke's Lutheran church, White Hall, at congregational meetings Sunday morning. The joint councils sent the official call this week James R. Strevig, Littlestown R. 2, president of the joint council, said the new pastor will assume his duties August 1.

The parish has been vacant since the resignation of the Rev. Dr. J. M. Myers October 31, after a pastorate of 19 years and five months to devote his full time to his duties at the Gettysburg seminary, where he is professor of Old Testament. During the vacancy Rev. Dr. Myers served as supply pastor.

Native of Lebanon

The Rev. Mr. Feeman is a native of Lebanon. He is a graduate of the Lebanon high school; Susquehanna university at Selma, where he received the bachelor of arts degree; and Susquehanna Theological seminary. He is doing graduate work at the local seminary. The pastorelect began his ministry at Turbotville, Pa. His second charge was at Millheim, Pa., and for the past seven years he has been pastor of the Roaring Springs church.

The Rev. Mr. Feeman is a member of the Roaring Springs Chapter of Commerce, Woodbury Lodge No. 539, F. and A. M. at Roaring Springs, and the Williamsport Consistory. Rev. and Mrs. Feeman are the parents of two children, Dayton and Mary. They will reside in the parsonage at 227 East Middle street.

Things Of The Soil

**When Slugs And Snails Arrive**  
For all practical purposes of control, gardeners might consider slugs and snails identical—the slug merely as a snail without a shell. These invaders are not insects, although they are often so classed. They are actually animals.

The snail is an extremely interesting creature. Its correct generic name is Helix. Greek for spiral. Both sexes exist in an individual, part of the life spent as a female and the remainder as a male or vice versa. The head or protruding portion when the animal is in motion is equipped with two pairs of tentacles, the larger or upper pair containing the eyes, the lower ones serving as a nose. The teeth are used in or on the tongue, which is located in much the same manner as a mechanical uses a rasp or file. Unlike the slug, a snail may seal up the opening to its "house" and remain dormant for as long as four years with no apparent evils resulting from its long fast.

This ability to shut itself in its shell gives the snail superior surviving power over the slug. The latter is killed by ordinary winter temperatures in this part of the country, although it easily lives over by secreting itself in cisterns, well walls, basements and cellars, greenhouses and similar places. Occasionally it winters over beneath trash heaps. Both slugs and snails propagate in damp nooks, preferably in moist, decaying timbers and beneath poorly ventilated foundations and in unkempt cellars. Often manure and compost heaps offer them breeding and hiding shelter.

The first and most important step on war on these animals is to clean up and eradicate the place or places where they find suitable protection. Old lumber should be stacked above the ground level to afford light and dryness beneath. Loose bricks, stones and similar litter should be removed. Foundations should be pointed up. Particular attention should be given walls, cisterns, basements, and cellars. Sunlight, fresh air, and dryness will solve many snail and slug problems.

These pests damage many kinds of vegetable and ornamental plants by gnawing ragged holes in the leaves. Too, they often constitute a nuisance by leaving their slimy trails on porches and walks. If the recommended clean-up does not exterminate them, start direct combat. They may be barred from small flower or vegetable plots by placing an unbroken barrier of air-slaked (builders') lime around the area. This should be 3 to 4 inches wide and a half inch deep. The same remedy may be employed on a larger scale by applying a pound with a duster at the rate of 4 pounds to 100 square yards. In either case the lime should be applied in the evening and renewed whenever it becomes damp.

In severe invasions a poisoned bait may be used, made by mixing one ounce of powdered metaldehyde with 3 pounds of wheat bran. This should be distributed over the infested area in late evening. If formed into small pellets and these placed at intervals of a foot or two where the animals are troublesome, bait will be saved and uneaten pellets may be gathered early the next morning in order to protect birds, poultry and animals from eating the poison.

## SENATORS WIN NINTH IN LAST DOZEN STARTS

By RALPH RODEN  
(Associated Press Sports Writer)

Bucky Harris, the Yankee castoff who never has finished last, has his Washington Senators stirring up the rumpus in the American league pennant race.

Harris, back at the Washington helm for the third time, has guided the Nats to nine victories in their last 12 starts and to within a game and a half of the league-leading Yanks.

Bucky, fired by the Yanks after leading them to the pennant in 1947 and third in 1948, inherited a last place ball club after spending 1949 at San Diego in the Pacific coast league.

"Never Finished Last"

During the spring the experts didn't rate the Senators much chance of improving their position. But Harris, with a long managerial record that includes tenures with the Boston Red Sox, Detroit Tigers and Philadelphia Phillies besides New York and Washington, said, "I've never finished last—and I don't intend to start now."

"Give me some pitchers to go with Ray Scarborough and we will surprise a lot of people."

Well, Bucky is getting the help he wanted with emphasis on Sid Hudson who won only eight games and lost 17 last year.

A Triple Helped

The 32-year-old righthander, who pitched side arm last year but who now is pitching in his customary overhand fashion, turned in his fourth victory yesterday as Washington downed Chicago, 7-3. He aided his cause with a triple in the sixth.

The Boston Red Sox knocked Detroit out of a first place tie with the Yanks by outslugging the Tigers, 13-12, in a wild game at Detroit. The Yanks and St. Louis Browns had an open date.

The Red Sox piled up an 11-1 lead, thanks to a seven-run barrage in the fourth inning, but the Tigers came back with six in their half of the fourth and nearly pulled the game out in the ninth.

Detroit had runners on first and third, two runs in and only one out in the last inning but Joe Dobson buckled down. He got George Kell "off" a short fly to right and then picked up a Vic Wertz smash off first baseman Walt Dropo's glove and threw him out to end the game. Kell drove in five runs for Detroit.

A's Lose Close One

The Cleveland Indians shaded the Philadelphia Athletics, 4-3, winning in the ninth when Lou Brissie walked Bob Kennedy with the bases loaded.

The roof fell in on the St. Louis Cardinals, who piled up an 8-0 lead over Brooklyn in the first six innings and then went on to blow a nightmarish 9-8 decision at Ebbets field.

The Dodgers won with four runs in the eighth and five in the ninth. Four of the ninth inning rallies were pure gifts from Cardinal third baseman Tommy Glaviano, who committed three straight errors.

Giants Beat Cubs

Jim Russell and Jackie Robinson doubled to start the ninth. Furillo popped out but Gil Hodges beat out a hit and Duke Snider walked to load the bases. Glaviano then made his three misuses.

The New York Giants trounced the Chicago Cubs, 10-4, in a game called after six innings because of rain. Rookie Monte Irvin drove in five runs with a grand slam homer and single.

Scheduled games between Pittsburgh and Boston and Cincinnati and Philadelphia were postponed because of rain.

## Interstate League

(By The Associated Press)

The Hagerstown Braves and Wilmington Blue Rocks have parted company temporarily with the Braves holding the edge in their Interstate league series of the season.

When all of the games in the circuit were postponed last night because of rain, the pace setting Braves moved to Trenton and the Blue Rocks returned home to take on York tonight. Trenton is sixth and York third in the standings.

Hagerstown and Wilmington rhaged only one of their three-game strand and the Braves took that Tuesday night to extra innings to stretch their lead to three and one-half games. Hagerstown has dropped only two of 18 contests.

## Sport Shorts

Baltimore, May 9 (AP)—The names of five, and possibly seven, horses will be dropped into the entry box today for the 74th Preakness stakes, but Trainer Syd Veitch says all of the contenders excepting Mr. Trouble will be just wasting their time.

"I think we'll win the race, and Middleground will be second," the congenial trainer of C. V. Whitney's famous racing stable said without batting an eye.

## Jones "All Right" After Operation

Boston, May 19 (AP)—The condition of former golf king Bobby Jones was described as "all right" today after a five-hour long operation to correct a spinal ailment.

A Lahey clinic spokesman reported that "everything went nicely" during the long operation yesterday, but that it would be a few days before doctors could determine whether the surgery was successful.

The operation to relieve pressure on the spinal cord was performed at the New England Baptist hospital by Drs. Gilbert Horrax and James L. Popen.

## Sports Roundup

By HUGH FULLERTON, JR.

New York, May 19 (AP)—Mrs. Inside (the mid-western member of that know-it-all family) sends word that Notre Dame is in wrong with the other football-playing colleges for "jumping the gun" in signing a television contract.

At a recent Chicago meeting, he says, some of the other schools read the riot act and insisted the contract should be cancelled. . . . How that came about isn't explained. Only official NCAA action on the subject last winter was to recommend that no contracts be signed beyond the 1950-51 season. . . . Of course, if Mr. Inside's figure, \$200,000, is correct, the Irish could afford to build a modern air-conditioned doghouse and stay in it quite comfortably. They're not having any schedule troubles. . . . Incidentally, Mr. I. Reports, the chief spokesman against TV was Fritz Crisler, who can pack 97,000 into Michigan stadium, anyway. Fritz was thinking more about the little colleges and high schools.

OBSERVATION POST  
Jack Weinheimer, former NYU football coach, will receive the alumni meritorious service award this year. . . . He probably should get the purple heart, too. . . . Tiborio Mitri, the Italian middleweight, says his hobby is basketball, which he learned from American Occupation troops. . . . No doubt they offered to give him a few points.

SHORTS AND SHEELS  
Taking a hint (maybe) from the Red Sox, the Southwest conference has proposed that football coaches bar newspapermen from their dressing rooms after games until a half-hour "cooling off" period has elapsed. A lot of the coaches will ignore the suggestion. . . . Bob Searies, former Dartmouth ski captain, now demonstrates a different use for lumber at Vermont freshman baseball coach. Bob's team has four boys with the same name—Davis. Lynn is a pitcher, Frank first baseman, Tom shortstop and Dick an outfielder. . . . Auburn's Whitey Overton could break the Southeastern conference mile and two-mile records tomorrow and lose both races. Whitey can beat the marks—4:16.3 and 9:36—which have stood since 1937, but Florida's Hugo Nutini has run a 4:12.9 mile this spring and Tennessee's Tom Scott is credited with 9:22 for two miles.

Eastern League  
(By The Associated Press)

The Eastern league was washed out last night—for the second time this week.

Three doubleheaders and a single game are on tap tonight. Albany plays at Scranton in the singleton. The twin bills are Hartford at Wilkes-Barre, Binghamton at Elmira and Utica at Williamsport.

The clubs were paired the same way last night, when rain forced postponements. The weather also deferred all games Monday night.

Weather Forecast  
Extended forecast for the period Saturday, May 20 through Wednesday, May 24.

Eastern Pennsylvania, eastern New York and mid Atlantic states: Showers late Saturday ending Sunday; showers again about Wednesday, warmer the first of the week but cooler again Wednesday; temperatures for the period will average around normal in south portion and four to five degrees below normal in north portion; total rainfall one-half to three-quarters of an inch.

Western Pennsylvania, Western New York, Ohio and West Virginia: Showers Saturday and again about Tuesday, averaging around three-quarters of an inch; moderate temperatures over the week-end; warmer Monday and cooler Tuesday night and Wednesday; temperatures for the period will be near or slightly below normal.

## Bucher Chosen GHS Baseball Captain

William "Bill" Bucher, veteran catcher on the Gettysburg high school baseball team, has been elected as honorary captain of the team for the season which ended Tuesday.

Bucher was an outstanding performer on the team for several years and was one of the few lettermen Coach Howard Shoemaker had this season. Bucher will be graduated on June 4.

## SEEKING TREATY WITH AUSTRIA

London, May 19 (AP)—The Big Three foreign ministers announced today they will appoint civilian high commissioners "at an early date" to replace military governors in the Western occupation zones of Austria. They also promised to lighten Austria's occupation burdens.

A brief communique issued as a result of American-British-French talks on Austria said the "unwillingness of the Soviet government to settle all outstanding issues" prevents the conclusion of an Austrian treaty of independence.

U. S. Secretary of State Dean Acheson, British Foreign Secretary Ernest Bevin and French Foreign Minister Robert Schuman reaffirmed in the statement that their policy is directed toward the earliest possible completion of a treaty and the withdrawal of Western occupation forces.

It also is intended to strengthen the authority of the Austrian government, they said.

The Western decision will produce in Austria a situation similar to that in Germany, where civilian high commissioners replaced military governors about a year ago in the Western zones.

Austria has been pressing for full withdrawal of occupation troops and much broader powers for her own government. Russia has rejected her appeal in full, but the Western powers have agreed to give it consideration.

## News Briefs

Washington, May 19 (AP)—The House ways and means committee voted today to cut the taxes on the coal industry \$5,000,000 to \$10,000,000 a year.

It was a further move away from the recommendations of President Truman. The President has urged that business taxes be increased, if changed at all, to make up for prospective losses in government revenue from cuts in excise taxes on such things as telephone and telegraph bills and travel tickets.

Harrisburg, May 19 (AP)—Three young men, sentenced to death for a 1947 Bucks county tavern slaying, made last ditch pleas for their lives today before the State Pardon Board.

The three, David Darcy, 27, Harry Zeitz, 21, and Harold Foster, 25, all of Philadelphia, pleaded through their attorneys for commutation of their death sentences to life imprisonment.

They are sentenced to die the week of June 26 for the slaying of Allen Hellerman and William Kelly during the holdup of a Feasterville tavern on December 22, 1947. Felix Capone, 18, was sentenced to life imprisonment in the same case.

Philadelphia, May 19 (AP)—Pennsylvania's two National Republican committee members will not resign. The Philadelphia Inquirer reported today.

The newspaper quoted informed sources as saying former State Senator G. Mason Owlett and Mrs. Worthington Scranton have decided to retain their posts despite pressure from the victorious camp of Governor James H. Duff for them to get out. Owlett and Mrs. Scranton opposed Duff in this week's primaries.

State College, Pa., May 19 (AP)—The duty and responsibility of the press for "truthful and inclusive reporting" was emphasized today by Robert S. Bates, of the Meadville Tribune, in opening the annual Pennsylvania Press conference.

"Nothing is more important than truthful and inclusive reporting, both to inform the people and to establish the credibility of the press," said Bates, who is president of the Pennsylvania Newspaper Publishers association.

## Labor Government Beats Challenge

London, May 19 (AP)—The Labor government today defeated a challenge to its gasoline rationing policy. The vote was 187 to 141.

The debate in the House of Commons was on a private motion of Conservative John Arbuthnot. Since it was a private motion it did not involve the fate of the government.

The motion was "that this House deplores the continued failure of the government to make available adequate supplies of petrol at a time when large petroleum resources exist both outside and inside the sterling area."

## AIRMEN INFER THEY ADMITTED SPYING TO REDS

Pearl Harbor, May 19 (AP)—Two U. S. Airmen indicated yesterday they had admitted a Red charge of spying in order to escape from 18 months of captivity in Communist North China.

Marine Sgt. Elmer C. Bender, 27, Cincinnati, and Navy Chief Electrician's Mate William C. Smith, 32, Long Beach, Calif., said they were treated better "than we could possibly have expected."

But they wouldn't say yes or no to a press conference when asked if they had signed confessions that they were American spies. The Communists in announcing their release May 3 said they confessed.

"As far as statements we made while we were up there," said Bender, "we were cut off entirely and the best way to get out was through our own efforts."

Indicated Long Terms  
Asked what was meant by that, Smith said it was a long story and "I will explain it all later." When a reporter asked them, however, what means were used to get "confessions," Bender replied:

"There were no means, so-called. But it was that they gave us the idea that we were to be there from now on. We were shut off from home. We had no news from home. The longer we stayed, the longer it looked as if we were going to stay."

The two were captured October 19, 1948, when their light plane was forced down by engine trouble near the North China port of Tsingtao. The city then was a U. S. Navy anchorage and they were on a training flight.

Reporters wanted to know if they were accused of spying. Bender said the Communists didn't want to accuse them directly so they worded the question "in such a way you can answer it almost any way."

and said that much of the poultry work of the extension office is now being carried out through the county Federation of Poultrymen.

County Agent M. T. Hartman reported that the county office is now sending out several suggested sprays in connection with its aid to fruit growers, in order to permit the growers to make their own selection based on their own individual needs.

As an example he pointed to sour cherry spray information letter No. 4 sent out today. The letter recommends two formulae, one calling for two pounds of Crag 341B plus three pounds of fresh spray lime plus two pounds of lead arsenate per 100 gallons of spray. The other formula calls for two pounds of Ferbam and two pounds of lead arsenate per 100 gallons. The sprays are designed to control curculio, cherry leaf spot and brown rot.

Hartman and A. B. C. Williams, a member of both the board of directors of the extension association and of the Producers Livestock Cooperative, reported on a recent meeting of the cooperative.

County's Bees Threatened  
The county agent told the directors he was disappointed in the response to the recent Crops and Soils day and also noted that an insufficient number of farmers are taking advantage of the Bang's disease eradication program of the state.

He reported that Jess Posey, state bee inspector, is active in the county and urged bee keepers to cooperate with the inspector in order to rid the county of foul brood. He noted that foul brood will eventually kill off hives, but that if let go unchecked the hive members will infect other hives.

He also reported that state and federal agencies are conducting a check on common barberry eradication in the county as a follow-up on work carried out several years ago. Little barberry has been found so far. The plant should be destroyed.

Hartman said, because it is a host plant to stem rust infection on cereal grains.

## DOUBTS SOLONS WILL CONTINUE RENT CONTROLS

Washington, May 19 (AP)—Rep. Wolcott (R-Mich.) expressed doubt today that Congress will continue federal rent controls, saying they are "no longer necessary."

Wolcott, top-ranking Republican on the House banking committee, is a longtime foe of federal rent ceilings. He said a rent bill approved by the committee yesterday "is a political face-saving compromise and might cause chaos."

By a 13 to 4 vote, the committee approved a one-year continuation of controls—with the provision that ceilings would be lifted automatically December 31 in all localities where the governing body or the citizens did not vote to continue them until June 30, 1951.

The present law covers 11,000,000 dwelling units throughout the nation.

Committee Democrats voted solidly for the compromise bill. While it is weaker than the administration wants, Chairman Spence (D-Ky.) described it as "the best we can get." One Republican voted for the measure; four voted against it.

House Democratic Leader McCormack (Mass.) said he expects a vote on the bill within two weeks. The Senate banking committee has yet to report a rent bill on the other side of the capitol.

## Out Of The Past

From the Files of the  
Star and Sentinel and  
The Gettysburg Times

**FIFTEEN YEARS AGO**  
250 Children March in May Day Services: More than 250 school children of St. Francis Xavier's parochial school participated in the annual May Day procession and services in St. Francis Xavier's Catholic church, Sunday evening. The Rev. Fr. Mark E. Stock officiated and Rev. Joseph Schmidt, of Carlisle, delivered a brief sermon.

Three little girls, Grace Myers, Geraldine Grot and Theresa Riley, carrying a crown of spires, walked into the sanctuary and Geraldine Grot placed the crown of flowers on the head of the statue of the Virgin Mother as the school children sang "Bring Flowers of the Rarest."

The six little flower girls were Patsy Anne Cole, Ida Redding, Betty Ford, Loretta Diehl, Catherine Small and Betty Bowling.

The church was filled to capacity and several hundred were forced to stand in the foyer.

Successor to Prof. Taylor: At a special meeting on Thursday evening, school directors of the joint school unanimously elected Prof. H. S. Bolan, of Schuylkill county, as supervising principal of the Arendtsville borough, Franklin township and Butler township districts, it has been revealed. He succeeds Prof. Charles Taylor.

Large Crowd at Musicals: A large crowd of parents and friends attended the annual spring musical given on the high school athletic field Friday afternoon by over four hundred students of the public schools.

Three-part program was under the direction of Miss Dorothy Brindle, assisted by the grade school teachers.

Miss Maybelle Herter and Miss Florence McClellan played the piano accompaniments.

13 Applicants for Secretary Post at G. H. S.: Thirteen applicants sought the position of secretary to Superintendent of Schools Lloyd C. Keefe, which will be made vacant on June first, when Miss Kathryn Plank resigns to accept a position as stenographer in the local highway office.

The applications were opened by the Gettysburg school board members at the May meeting Friday evening. A secret ballot was taken and on the first ballot Miss Eleanor Zimm was elected at a salary of \$40 per month.

A stenographer was voted Principal Lefever for two weeks after the close of school at a salary of \$1 per day.

The First National bank was elected treasurer of the school board. The bank declined to accept the customary \$50 year salary.

Drowned Sisters Buried in Same Grave: The bodies of Audrey and Theresa May McGlaughlin, six-year-old daughters of Mr. and Mrs. Howard McGlaughlin, who drowned Tuesday evening in Roddy's quarry, near Emmitsburg, were laid to rest in the same grave on the mountain-side cemetery at St. Mary's Thursday morning.

Between three and four hundred persons assembled at the Shrine of St. Anthony's Catholic church to attend the funeral rites of the two sisters. A requiem high mass was celebrated at 9 o'clock by the Rev. Fr. J. Leo Barley, rector. The Rev. Hulet V. Piper was in the sanctuary during the celebration of the mass and at the services at the grave.

Insurance Office on First Floor: Miss Mary Ramer, local real estate and insurance agent, announces the removal of her offices from the second floor, 17 Chambersburg street, to the first floor, 41 Baltimore street. The new offices were opened Saturday morning.

Buy Mizell Farm: Earl Buohl and John Shultz, of Gettysburg, have purchased the former Mizell farm, three miles north of Gettysburg, along the Harrisburg road, from the federal land bank. Immediate possession was given. The farm contains 185 acres.

## Today's Talk

By GEORGE MATTHEW ADAMS  
THE BLESSING OF TREES

The leafing of the trees at springtime is one of the miracles of the year. No other season is so inspiring. It is a time of blooms and beginnings. But few there are who see in these trees of ours their significance, and all that they have bequeathed in blessings to mankind.

Our libraries and our homes are the product of trees. And here in nature we learn of one of our first inventors—the wasps, who were the first manufacturers of paper. They began their work in the Garden of Eden, and were to first to use wood for their homes. And as far back as 3500 B. C. the Egyptians created their papyrus on which they printed their crude language. Later the Chinese took up the idea and made paper from a process of wood pulp.

Today we owe to the trees our great libraries, our endless parade of books, magazines and newspapers. It was not until 1803, however, that paper was made with machinery in England. From then on the inventive mind of man has perfected processes by which millions of tons of wood pulp, day and night, pour out their product of paper of every description.

There is poetry in a tree, and many a poet has proved it. How poor and desolate would our homes, parks, and towns, without trees. Every forest is a living asset, and we cannot conserve them too much. To wantonly destroy them is a crime against mankind, as well as against nature. In the great forests of California are examples of the noblest trees in all this world—many that were in their youth when Christ was born!

Our song birds love the trees, and hide their homes among their branches. The study of trees, and their many varieties, is a fascinating one. Every variety with a perfect and a leaf of its own design. Silent though they stand, in their beauty, there comes to those of us who love them most, a sense of understanding, as though they talked silently to us.

It was while lying under a tree that Newton discovered the theory of gravitation, and it was Richard Jeffries who rested upon the warm grass under a tree and composed his best loved book—"The Story of My Heart."

Tomorrow Mr. Adams will talk on the subject: "Writers Of Encouragement"

## Just Folks

By EDGAR A. GUEST

**FOLLY**  
With all the wisdom taught in schools  
There shouldn't be so many fools.  
So many, stupid blundering men  
Who want to go to war again.

By now 'tis strange we haven't learned  
That peace from war is never earned;  
That never long are cannons still  
Since war breeds war and always, will.

We must be fools to think that we  
Must battle when we disagree  
And give to fearful weapons new  
The problems sense would better do.

Oh, sorry men so much to know  
And yet to learn one truth so slow  
That reason, if we dared to try,  
Would save the boys war calls to die!

## SEEK TO OUST WAYNE MORSE

Portland, Ore., May 19 (AP)—Conservatives in this last Republican stronghold in the west make an attempt in the Oregon primary election today to unseat Republican Senator Wayne L. Morse.

They do so even as their stronghold shows signs of extreme shakiness.

For the first time Democrats go to the polls with numerical superiority. They are balloting on some offices they formerly let go by default to Republicans. The intent is to get a strong slate of candidates that may upset Republicans in the general election next fall.

Republicans, who control the entire Congressional slate, plus the governor's office, are sticking by incumbents—except in Morse's case.

There party conservatives have given generous backing to previously unknown Dave Hoover, a Willamette Valley dairyman, who told voters that the choice between him and Morse was one of "liberty vs. socialism."

## Will Reveal New Census Figures

Washington, May 19 (AP)—With the 1950 population count more than 95 per cent complete, the Census Bureau has decided to have the tentative figures announced locally for cities of 1,000 or more.

The announcements will be made this month and into June. Original plans had called for local announcements only for counties and for cities having more than 10,000 population. The bureau plans no announcements at all now for towns with less than 1,000 population.

It will be mid-July before the tentative state population figures begin to be made available here. The tentative national figure is not expected to be ready at bureau headquarters until September.

## PRESBYTERIANS NAME DR. EVANS

Cincinnati, May 19 (AP)—A 63-year-old Dayton, O., minister took over his duties today as moderator of the General Assembly of the Presbyterian Church of the U.S.A.

Dr. Hugh Ivan Evans, pastor of the Westminster Presbyterian church for the past 26 years, was elected moderator yesterday over two other nominees and will preside over the Assembly during the next year.

As he took office, Dr. Evans said: "I summon your minds to a vital Christian faith; I summon your wills to an extension of Christianity unto new and fertile fields through church extension in crowded areas at home and abroad, through interdenominational cooperation."

Dr. Evans was elected on the first ballot with 449 votes to 254 for Dr. Peter K. Emmons of Scranton, Pa., and 151 for the Rev. Edward J. Ardis of Mechanicsburg, Pa.

The new moderator was born on a farm near Scott (Van Wert county), Ohio. He is a graduate of the College of Wooster and Princeton Theological seminary. Before going to Dayton he served as pastor of churches at Gallipolis, Marysville and Portsmouth, O.

The West African Gold Coast is British-governed.

## NATION WILL MARK AF DAY

Washington, May 19 (AP)—President Truman will sound the keynote for observance of Armed Forces Day throughout the nation tomorrow.

With Secretary of Defense Johnson, the President speaks tonight at a banquet of military men in the Statler hotel, here—a session expected to stress the theme of national strength through unity.

Tomorrow's nation-wide observance of Armed Forces Day will be

the first of its kind. Heretofore the Army, Navy and Air Forces have sponsored separate "days" of their own. The change reflects unification of the three services under the Defense Department.

Crack units of all the armed forces will pass in review before the President, Johnson and other national leaders in a mammoth military parade in the capital tomorrow morning.

Eight big B-36 intercontinental bombers from Fort Worth, Texas, will mark the day by taking different routes across the country, one passing over each of the 48 states capitals and more than 250 cities and military installations.

The Navy will display ships of

## Sophomore Dad To See Son Graduate

Newark, Del., May 19 (AP)—A 49-year-old sophomore will see his son get a diploma at the University of Delaware's annual commencement exercises June 6.

Receiving his sheepskin in business administration will be Frank H. Horner, Jr., 24, of Wilmington, Del., a Navy veteran of World War II. Witnessing the ceremony will be

many types in the principal ports along the coasts and the Great Lakes. These ships, like shore installations of the Army, the Navy, the Air Force and the Marine corps, will observe "open house" for the public.

his father, Frank H. Horner, Sr., a sophomore in the school of education. The elder Horner also is a veteran of the last World War.

Returning from service with General Patton's Third Army, the elder Horner said he decided to enter college because he was "fed up with being nice to people" in his old job as a grocery clerk. He thinks teaching will be better because "you don't have to worry about pupils taking their business to the school on next corner."

A dairy cow has been found in some conditions to return about seven times as much income per acre of pasture as any other livestock.

## POLIO FUND HITS

(Continued from Page 1)

The pamphlet urges that children particularly avoid others than their own group of friends during the summer months, that both children and adults try to avoid becoming overtired by work or hard play, that all avoid getting chilled, and that all keep clean and keep food clean and covered. The pamphlet urges all to check with their doctors if they have headaches, sore throats, sore muscles, upset stomachs, fevers, stiff necks, stiff backs or difficulties in breathing.

## REPORTS MILK SUBSTANCE CAN DESTROY VIRUS

Cincinnati, May 19 (AP)—A substance in human milk, the identity of which still is unknown, has been established as a destroyer of the virus of poliomyelitis.

That report came yesterday from Dr. Albert Sabin, director of Infantile Paralysis Research in Cincinnati's Children's hospital.

Dr. Sabin declared, however, that studies are being continued in an effort to learn just what the substance is that destroys the polio virus.

He said the same success in fighting polio has been achieved with milk from a few cows in a herd of 20 now being studied at two farms near Lebanon, Ohio. There again more work is to be done, he explained, because researchers have not yet been able to tell why some cows give the substance-containing milk and others do not.

Dr. Sabin said that one thing which led to the discovery of the properties of human milk was the experience in a polio epidemic last year in a Canadian Eskimo settlement.

### Babies Escaped

There were 275 cases of the disease. Twenty per cent of the victims became paralyzed and 14 per cent died but in no case did a child under three years old, when children normally are being nursed by their mothers, become paralyzed.

He said it first was determined that immunity with which all babies are born was not the contributing factor. Then it was found that human milk coats the mouth, throat and digestive tract to set up a barrier to the polio virus.

That, it was explained, was of particular importance since it is by way of the mouth that the polio virus enters the human system.

Continuing the studies, 30 Cincinnati mothers were asked to give both blood and milk specimens. The human milk was mixed with polio virus and injected into mice.

Mice which received the mixture survived without paralysis while those which were inoculated with only polio virus developed paralysis.

## Kunkel Will Keep Capital Residence

Washington, May 19 (AP)—Rep. John C. Kunkel of Harrisburg, Pa., beaten by Gov. James H. Duff for the Pennsylvania Republican senatorial nomination, is going to continue to live in Washington a portion of the time.

"For years I have been wanting to do some reading and writing—much more than my job as congressman gave me time to do—and now I can do it," he told a reporter yesterday.

Mrs. Kunkel and I will keep our Washington apartment and we intend to spend a lot of time here."

Unlike many defeated congressmen, Kunkel doesn't have to be concerned about making a living. He is independently wealthy.

Kunkel was warmly greeted by Republicans and Democrats on his return to the House.

## Corporation Tax Changes Studied

Washington, May 19 (AP)—A speed-up in corporation tax payments and possibly an increase in corporate tax rates were weighed in the House.

They might be one way to dodge a presidential veto of a \$1,000,000,000 slash in excise taxes.

What the committee will do is not certain.

Yesterday it courted a tax bill veto by flatly rejecting Mr. Truman's proposal for \$200,000,000 additional taxes on oil, gas, sulphur and non-metallic minerals operations.

Earlier it had turned down a \$400,000,000 increase in taxes on inheritances and large gifts, also proposed by the President.

## Cow Tester's Report--

The report of the Adams County Dairy Herd Improvement association for April follows:

Paul Leas, Jr., Tester, Circuit No. 1

There were 23 herds tested, with 25 days worked: 493 cows in milk, 87 cows dry, five sold for non-dairy purposes, three cows bought, 26 records reported on 718 cards, 192 cows produced over 40 pounds of fat, 101 cows produced over 50 pounds of fat, 191 cows produced over 1,000 pounds of milk and 113 cows produced over 1,200 pounds of milk.

Penn. Eng., May 19 (AP)—A stained glass window commemorating the links between the 837-year-old Holy Trinity church here and the Protestant Episcopal church diocese of Pennsylvania will be dedicated here Sunday.

The window, in the Trinity church, is about four feet, six inches wide and eight feet high. It depicts the seal of the Diocese of Pennsylvania.

Church. Conditions and situations may change but God's imperatives do not. "New occasions teach new duties" and must be observed.

The employer of labor needs to be constantly on guard that he does not take advantage of an employee's situation and so break the law of fair dealing. Likewise, the advance may rest with the one employed and consequently the temptation to be dishonest in rendering service. Elaborate machinery has been created to discover what is fair, and to enforce it when found. The process is simple, or may not be necessary, when human rights are recognized as fundamental.

Just now in our American life race relations are receiving more attention. Is it right that a person should be denied opportunity, recognition or reward just because the color of his skin is not white? Fair employment practices are urged and are being written into laws. The Negro, for instance, is being recognized more and more in all the areas of American life—industry, science, culture, sports. The Medical Association of the state of Florida has just opened its membership recently to Negro physicians. This is as it should be and accords with the principles Micah preached. A review of 50 years of progress by the American Negro has been made and is impressive.

### Hired Prophets

In the day of Micah prophets were often hired by kings and others in high position, and their prophecies were usually such as their employer would like to hear. They were labeled "false" by Micah in his usual direct language. These counterfeit prophets together with the oppressors of the poor would eventually bring down to the Hebrew nation, Micah declared, Syria was especially feared but the voice of Micah was not heeded. The morale of the people was weakened by unfair and strident practices of those who had the upper hand. So in time the predicted fate descended.

Companion to the fake preaching of these mercenary religious leaders was false worship. Micah condemned this by piercing questions. Will Jehovah be pleased with sacrifice of countless rams or rivers of oil or even by the offering of your children? What is the character of true religion? Micah answers this: "What doth Jehovah require of thee, but to do justly, and to love kindness, and

## STEAMBOATS TO RACE SATURDAY

Pittsburgh, May 19 (AP)—Steamboat engines are being tuned up and paddle wheels oiled for the long-awaited race tomorrow of the Titan and the Homestead.

The steel company towboats will race up the Ohio and Monongahela rivers at 4 p.m. tomorrow in the climax of the city's second annual welcome week celebration.

More than a quarter million spectators are expected to see the second revival of old time steam boat racing. A speedboat regatta, lasting several hours, will precede the steam boat contest.

The weatherman's forecast of considerable cloudiness and some

to walk humbly with thy God? Truly, this breathes the spirit of the Savior.

Where cross the crowded ways of life, Where sound the cries of race and clan, Above the noise of selfish strife, We hear Thy voice, O Son of Man.

Questions On The S.S. Lesson

1. Who were contemporaries of Micah?
2. What may Micah's preaching be called?
3. What must the Christian observe?
4. Name one present social problem?
5. What words indicate true religion?

### Answers

1. Isaiah and Hosea.
2. A prelude to Christ's teaching.
3. Social justice.
4. Practice of fair employment.
5. Justice, kindness, humility.

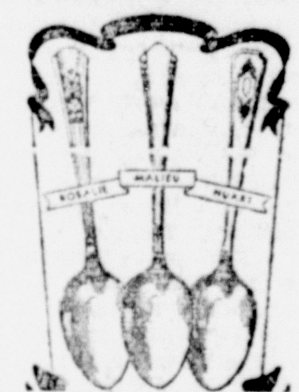

showers is not expected to cut down the size of the crowd.

Owned by the U. S. Steel corporation, the Homestead is a veteran of 28 years service on the rivers. The Titan, owned by Jones and Laughlin Steel corporation, is 20 years old. Last year the Homestead defeated another Jones and Laughlin towboat.

This year the boats will race three and three-tenths miles from Brumet's island to the Smithfield street bridge.

Victor, Colo., twin city of Cripple Creek, is still a mecca for visitors and still a famous mining town whose streets were once paved with gold.

# UNDERWORLD TO BE PROBED FOR TAX INVASIONS

Washington, May 19 (AP)—Senate crime investigators made plans today for a two-pronged attack on the underworld, aimed at ferreting out any signs of either income tax evasion or links with political groups.

Chairman Kefauver (D-Tenn.), of the Senate's special crime investigating committee disclosed both projects while talking to reporters.

He said the committee has decided to throw the main spotlight on "the alleged concentration of property, money and wealth in the hands of organized criminal elements."

Along that line, Kefauver said, the group may ask President Truman for an executive order permitting the senators to check the income tax files of suspected criminals.

**Seek Political Tie-Up**

Numerous mobsters in the past have been sent to prison even when their gangland activities could not be proved, when it was shown that they made more money from undisclosed sources than was reported on their income tax returns.

Kefauver said the investigation into how the underworld piles up its wealth also will deal with organized crime's "connections with governing bodies."

"That means its connections with politics," a reporter asked.

"Yes," Kefauver replied.

At least a dozen undercover agents will be sent into the field "very soon," Kefauver said, to begin working with city and state crime commissions, and with federal and state law enforcement agencies.

# SOCIETY ELECTS NEW DIRECTORS

Harrisburg, May 19 (AP)—Nine new directors were elected today at the 27th annual convention of the Pennsylvania Society for Crippled Children and Adults. Forty-three directors were re-elected.

New board members are Joseph Orr, Altoona; Floyd Pett, Reading; Dan L. Auchenbach, Johnstown; Earl Brown, Bradford; Mrs. W. F. Clinger, Warren; Mrs. Frank Maryott, Weilsboro; Mrs. Richard Parsons, Lock Haven; Mrs. M. E. W. Lacer, Sunbury, and Ralph Poorbaugh, Somerset.

George E. Reimer, the society's executive director, detailed the duties and program of local affiliated units. He stressed an expanded Easter Seal sale through which the society obtains its funds to help more than 30,000 crippled boys and girls in the commonwealth.

Directors re-elected were: Fred Weibel, Allentown; John R. McLaughlin, Beaver; Paul Gingham, Bethlehem; James E. Marshall, Butler; Mrs. William C. Schulz, Camp Hill; P. H. Dyatt, Catawagaua; C. P. Grunden and Edwin M. Lillis, Erie; Emlyn Evans, Frackville; Dr. S. L. Grossman and Ritchie Lawrie, Jr., Harrisburg; Joseph D. Gallagher, Hazleton; James Rutherford, Honesdale; Dr. Herbert K. Cooper and Dr. John B. Noss, Lancaster; Frank S. Riordan, Lansford; Wilbur Warner, Lehigh; Mrs. Eleanor M. Allen, Narberth; H. Van Churchill, New Kensington; Dr. William R. Harkins, Osceola Mills.

**Retired Admiral Says War Is Coming**

Indianapolis, May 19 (AP)—Admiral Jonas H. Ingram (USN-Ret.) declared last night that war is inevitable within two and one-half years "the way we're going now."

The Indiana-born former commander of the U. S. Atlantic fleet issued the warning at an Armed Forces Day dinner here.

Adm. Ingram said the nation needs "a bipartisan State Department with the best fellows in it possible and a foreign policy the whole world and Stalin would respect."

Reform the United Nations without Russia and her satellites? No, said Ingram. "We can't bring about world peace if we can't have Russia across the conference table from us," he declared.

**MORRIS SPENT \$15**

Harrisburg, May 19 (AP)—Henry Arthur Morris, Mahanoy City piano dealer, reported to the State Election Bureau today he spent less than \$150 in his unsuccessful campaign for the Democratic nomination for governor. Morris told reporters that his campaign expenses actually were about \$15. Richardson Dilworth, backed by the Democratic organization, won the gubernatorial nomination.

New York, May 19 (AP)—Still another quiz with a giveaway slant today that Mildred E. (Axis Sally) Gillars must serve 10 to 30 years in prison for broadcasting Nazi propaganda during World War II.

The white-haired, 49-year-old former actress was convicted more than a year ago in Federal District court here. The verdict was handed down by a jury which deliberated 17 hours and 20 minutes.

In addition to the sentence of from 10 to 30 years, she also was fined \$10,000. She would be eligible for parole after serving 10 years in prison.

Today's development marked another scene in one of the postwar period's longest treason dramas. Miss Gillars first was arrested nearly five years ago when American troops entered Berlin.

Before the downfall of the Nazis, her smooth-voiced radio shows became known to millions of GIs. She was the supposedly glamorous radio siren who taught them the haunting strains of "Lili Marlene" which became the world war marching-fighting song of the American

## Young Mother Is Held For Murder

Williamsport, Pa., May 19 (AP)—A 22-year-old mother was back in Lycoming county jail today under a charge of murder in the April 28 death of her eight-month old daughter.

Mrs. Lillian Chire Snyder, of Williamsport, R. 2, was held for court and recommitted to prison late yesterday in a hearing before Justice of the Peace A. Edgar Eschenbach, of nearby Loyalsburg township. Bail will be set by the court.

District Attorney Lee B. Lansberry, Williamsport, said earlier that Mrs. Snyder admitted striking the child against the side of its carriage on the night of April 27. Shortly after, the baby was pronounced dead on arrival at Williamsport hospital.

Witnesses at the hearing included Dr. Samuel Youneman, Jr., Williamsport hospital intern; Dr. Charles R. Martin, Lycoming county coroner; Dr. M. G. Colvin, who performed the autopsy, and State Trooper Bernard L. Welborn.

## GOING TO HARVARD

Cambridge, Mass., May 19 (AP)—Dr. Harvey Brooks of Schenectady, N. Y., former assistant professor at Pennsylvania State college, was named yesterday Gordon McKay professor of applied physics at Harvard. Dr. Brooks was a special research associate at Harvard from 1942 to 1945 before joining the Penn State staff. He joined the staff of the General Electric company's Knolls Atomic Power research laboratory in 1946.

Horace Ashenfelter's younger brothers, Don and Bill, of Collegeville, Pa., are Penn State's top distance runners this spring.

Boston, famed four-miler of the 1830's and winner of 40 of his 45 races, was named for a card game and not for the city.

## Sheppard DIESELS

than it does ONE gasoline tractor of the same size

$\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$  The Cost

Hundreds of progressive farmers report: "Saving an average of \$500.00 a year on tractor fuel bills since switching to Sheppard Diesel power." Let us demonstrate this amazing fuel economy where it counts most . . . on your farm. Just phone us the time and place.

DIESEL'S THE POWER. SHEPPARD'S THE DIESEL.

A few of the many features found in this full Diesel tractor: Starts and operates on low cost furnace oil. No spark plugs, no carburetor, no magnetos. Change oil in crank case only twice a year, spring and fall. Sheppard's rugged heavy duty construction means three to five times longer between major overhauls.

Independent live power take off makes it entirely independent of motion of tractor. (For that combine, forage harvester or baler you will find many advantages over regular power take-off model tractors.)

Eight-speed transmission, provides the right gear for every operation. The simplicity of the Sheppard tractor enables the average mechanic with ordinary tools to service same.

The Sheppard Diesel Farm Tractors are manufactured by R. H. Sheppard Co., Inc., Hanover, Pa. This is a great advantage to you as an operator, and to us as a dealer. It enables us to give you the best in service. See what goes in the next tractor you buy. We will be glad to make arrangements for you as a prospective buyer to go through the factory. Compare the material and parts that go into this tractor with that of any tractor on the market. You will readily see why these tractors give longer service; it's the way they are built.

Ask for the names of our customers who are using these tractors, see what they have to say. A Sheppard Diesel in five or six years of average use will actually pay for itself in saving of fuel alone. See and drive the New Sheppard Diesel today. Orchard type available with over-size tires.

Also the following equipment for immediate delivery:

### Use Hoe Instead Of Chemical

The United States Department of Agriculture warns vegetable gardeners against substituting chemical weed killers for the traditionally effective hoe in war against weeds. The argument is based on economy as well as safety. This suggestion opens the interesting subject of weed control in general, a problem and task that play important roles in all plant growth, from a small formal flower bed to a vast farm. Like over-enthusiastic adoption of dangerous chemicals to control predacious insects, weed control materials have received widespread approval in the last five years. Airplanes applying chemicals to large ranch pastures, wholesale weed eradication campaigns in middle west grain fields, and claims for final victory over these age-old plant enemies of man hit the front pages across the nation. Evidence of this excessive and misleading publicity comes to the editor in letters from readers asking for details for spraying anti-weed chemicals in lawns, flower borders, and in vegetables and other food crop areas. It seems that the reading public in general is getting the impression that the last chapter in weed extermination is being written.

Nothing can be further from the truth. Chemical weed killers kill domesticated plants as well as weeds. Of course, some crop plants are immune. But many lawn owners have discovered to their own chagrin that spraying a lawn with a weed killer to eradicate a few dandelions has resulted in the loss of valuable shrubs and other ornamentals reached merely by fumes from the chemical.

Researchers must determine many facts yet before the green light of general use is flashed for combat of weeds by man-made poisons. Do dangerous toxic properties remain in the soil? Do edible plants absorb any of the poisons? What are the total long-range effects on the health of livestock and human beings? Are friendly insect life and beneficial soil bacteria affected by the chemical residue? These and many additional questions remain to be answered in actual scientific tests before widespread use of weed-killers is safely advisable.

In the meantime how is the warfare on weeds to be conducted?

To date there has been devised no better way to control weeds than

soil. Can 2, 4-D be used at all in the vegetable garden? The answer is a definite no. And until a safer and more practical weed killer is devised, the good old hoe must remain a potent and necessary weapon in weed control.

### NOTES ON FEEDING SHADE TREES

Shade trees are inherently handicapped along streets and highways, in lawns, and even in open fields. They are truly at home in deep woods where they enjoy the associated environment of numerous other trees and a soil deep and mellow from centuries of decay.

leaves. Brought from these ideal surroundings to the inhospitable conditions of the home grounds or other unsheltered sites, trees need considerable help from man to thrive and develop.

One of the primary needs of domesticated shade trees is an annual feeding of commercial plant food. This, as experience proves, should consist of all three major elements—nitrogen, phosphorus and potash. Something near a 6-8-6 strength is perhaps most satisfactory in average soils.

It should be applied a week or two before trees come into leaf or even a week or two afterward. The main fact to observe in relation to

the proper time of feeding is this: Too late stimulation may cause the growth of excessive soft wood which does not have time to mature before winter. This condition usually results in severe winter-killing. Therefore, deciduous trees should not be fed, except in emergencies, later than late May. Early May is far safer and better.

The amount of nourishment a tree needs cannot, of course, be determined by a cut-and-dried rule. In most cases 2½ pounds of 6-8-6 fertilizer for every inch of trunk diameter at waist height is deemed adequate. For example, a tree measuring 10 inches through the trunk at a height of 2½ to 3 feet from the

ground should have approximately 25 pounds of plant food.

Even more troublesome to many owners is the method of application. Most shade trees grow in the permanent sod of lawns or along sidewalks where it is impossible to cultivate the fertilizer into the soil. To meet these and similar restrictive surroundings, expert tree authorities usually administer the required amount of fertilizer in holes made with a soil auger or even with a heavy iron bar. These should be 8 to 14 inches deep, depending somewhat on whether the soil is deeply fertile or shallow, also on whether the tree is deep or shallow rooting by habit.

On this point it is important to notice that trees maintain few or no feeder rootlets up near the trunk base. Most of these tiny hairlike roots are found in the richer soil

out at a distance from the trunk equal to the length of the longest limbs. Or in other words, apply most of the plant food out beneath the tips of the widest branches, not up near the trunk base. And the same advice applies to watering trees.

The required plant food, as determined by the tree's size and needs, is divided among holes made about 18 inches apart each way, preferably in circles to permit easy location. Water the food gently into

the soil and stop the hole with moss or sod.

One such feeding every spring keeps a tree at the peak of vigor, far less liable to fall victim of diseases or insect attacks. Too, this program of nourishment brings out the maximum beauty of a tree, thereby adding it is intrinsic value and comforts it brings to all who come within its sphere of service.

Write the editor for a copy of our fruit and shade tree feeding instructions.

## 2 FLIERS BAIL FROM JET PLANE

West Chester, Pa., May 19 (AP)—An Air Force jet plane crashed and exploded last night after the pilot and his passenger had parachuted to safety in a heavy rainstorm.

The pilot, Major Richard H. Burner, 31, of Washington, escaped without injury. His passenger, Second Lieutenant C. H. Crivene, 23, sustained a cut lip.

The two-seater jet fighter training plane crashed near Lionville, Pa., about seven miles from where the two fliers came to earth. The wreckage was scattered over a mile area of farmland country.

Major Burner and his friend, Crivene, were flying from Indianapolis to Washington, D. C., when they ran into bad weather. Although in radio contact with several airfields, they were unable to reach Langley field near Washington.

The two bailed out at about 8,000 feet, landing close together near a highway. Three cars passed them before a fourth motorist stopped and took them to the Mansion House hotel at West Chester. Crivene was treated at Chester County hospital and then the two continued on to Washington.

A report at the same time of a similar crash in New Jersey said that two men had been told two men parachuted from a plane and that one man was rescued from Delaware bay by the Coast Guard.

## Jurist Seeks Aid Against Sex Crimes

State College, Pa., May 19 (AP)—Judge Samuel A. Weiss, of Pittsburgh, today called on civic agencies throughout Pennsylvania to help combat the danger of sex crimes.

In a prepared address before 500 delegates to the annual Pennsylvania Press conference, meeting here, the Allegheny county jurist termed sex criminals "the greatest menace to our society."

As an aid to solution of the problem, Judge Weiss recommended that psychiatrists be "employed by our schools just as we now engage medical doctors to catch the first symptoms of sex aberration."

Then we should be realistic enough and segregate them until they can be cured or until we are assured that they are incurable, and take steps to protect others from them," he said.

## "PARADISE" FOR ANGLERS OPENS

Bellefonte, Pa., May 19 (AP)—Pennsylvania's renowned "fisherman's paradise" opened for the 1950 season today with anglers converging on the resort from many parts of the state.

A prediction by the Weather Bureau of partly cloudy and mild weather was expected to act as starting gun for a large influx of men bearing rods and reels.

Charles A. French, executive director of the state Fish Commission, was scheduled to be at the head of the procession.

"Fisherman's paradise" is a three-mile fenced-in area along Spring creek, Centre county. It lures Pennsylvania's followers of Isaac Walton by containing some of the largest brook, brown and rainbow trout to be found anywhere in the state.

Although recent rains have swollen many streams around the state, Spring creek was reported running clear. This augurs well for the anglers, in the opinion of the commission.

The fishing derby got under way at 7 a.m. (EST). Closing time for each of the 54 days in the season is 8 p.m., excepting Sundays. All fishermen 16 years and over must have a resident fisherman's license and must personally register in and out of the paradise. No special license for the paradise is required.

Anglers are limited to five visits during the season. The catch is unlimited but only one fish ten inches or above may be killed in any single day's visit.

## MINNEAPOLIS-MOLINE HYDRAULIC-DRIVE COMBINE

New Power Flow Self-Propelled 12-Foot Model Shown Below

HARRY BOWERS, GETTYSBURG, PA., is the proud new owner of the Minneapolis-Moline Hydraulic Drive Combine shown above.

MR. BOWERS, who has had considerable experience with custom Combines, and after talking with owners and checking the many features of this machine, decided he could give his customers a much better, cleaner and faster job with the Minneapolis-Moline. This firm has been building combines since 1926.

Check the many features of this machine and you will then know why more farmers are waiting for these Combines. They range in size from 60 inches to the 14-foot cut. If you are thinking of buying a new Combine, all we ask is that you check and compare this machine with any competitive make.

If you are looking for some one to combine your grain, then contact HARRY BOWERS, GETTYSBURG, PA. Look over this machine. It is built to handle the heaviest grain just the same as the model D and E corn sheller handles corn.

WE HAVE SOME GOOD USED COMBINES

We have in stock now one 5-foot Case Power take-off model, used to combine only 18 acres of grain, now 20" less than list price. Guaranteed like new. Also have several older models.

OTHER FARM EQUIPMENT AVAILABLE

If you are thinking of a new Baler, Forage Harvester, Hay Dryer or Tractors, think of us. We are authorized dealers for the following equipment:

Minneapolis-Moline, Frick, Sheppard Diesel, New Holland Machine Co., Ferguson Tractor and Implements, Loudon Hay Dryers and Barn Equipment, Smoker Elevators.

## LABELS RAIL STRIKE THREAT "UNJUSTIFIED"

Chicago, May 19 (AP)—The threatened strike Tuesday of AFL switchmen against 10 railroads, the Western Association of Railways said today, "is wholly unjustified."

"This strike threat," the association said in a statement, "is a reckless drive for prestige—an attempt by one small union to outsmart and outdo a big rival union."

Only government intervention could avert the scheduled walkout—set for 6 a. m. (local time) against the 10 midwestern and western lines. Although no word came from the White House in Washington after the strike call Wednesday night, the National (Railway) Mediation board was expected to be called in and attempt to settle the wage-hour dispute.

### Would Involve 6,000

The board earlier this week mediated the agreement that ended the six-day strike of 18,000 locomotive firemen against five major rail systems. A switchmen's walkout, although directed against smaller lines, would delay service on the affected lines, a rail spokesman said. The AFL Switchmen's Union of North America said the strike would involve 6,000 members. A rail spokesman said 4,000 would be affected. The union's principal demand is for a 40-hour work-week at the pay now received for 48 hours.

Daniel P. Loomis, the association's chairman, said the union's demands also include a 44 per cent hike in the basic daily wage rate and other items which are equivalent to a boost of about 50 per cent.

### Present Pay Rates

For a 48-hour work week, switchmen now receive this annual pay: yard brakemen, \$3,944; switch tenders, \$4,010, and yard conductors, \$4,976.

Lines involved in the dispute are: The Chicago Great Western; Chicago, Rock Island and Pacific; Davenport, Rock Island and North-western; Denver and Rio Grande Western; Great Northern; Minneapolis and St. Louis; Northern Pacific Terminal company of Oregon; St. Paul Union Depot company; Sioux City Terminal Railway and Western Pacific railroad.

## TRUMAN BACKS FRENCH PLAN ON IRON, STEEL

Washington, May 19 (AP)—President Truman's enthusiastic endorsement today to a French proposal for pooling French and German steel and coal production.

The President welcomed the plan in a news conference statement yesterday, calling it the beginning of "a new outlook for Europe."

Diplomatic officials said that the project is in line with American policies for encouraging the closest possible ties between Germany and France and for increasing the total production of western Europe.

### U.S. Attitude Important

They see this specific proposal as contributing eventually to both the economic strength and military security of the western world.

The President said "there will be many difficult problems to solve in developing this far reaching plan" but he was certain "that the kind of imaginative thinking that went into the proposal can work out the details."

Until Mr. Truman spoke the official American attitude was sympathetic but otherwise publicly unde-

clared. The plan was put forward by French Foreign Minister Robert Schuman 10 days ago. It evidently took American officials largely by surprise and they wanted to give it careful consideration before committing themselves.

The American attitude is of great importance because of this government's power over German actions—since it is one of the nations along with Britain and France, in occupation of western Germany. Schuman's proposition calls for pooling French and German coal

If your excess weight is caused by over-eating (and not glandular), Kyron is designed to act 3 ways: (1) to help appease your hunger, to cut down your appetite automatically, yet you never feel hungry; (2) includes nutritious elements to help maintain your energy while reducing; (3) Recommends in package many foods often falsely labeled in ordinary diets as "fattening." Endorsement by your physician recommended.

"I LOST 35 POUNDS IN 7 WEEKS!"

—says Mrs. Kathryn Walter

5558 West Potomac Avenue, Chicago  
"Kyron results have been absolutely astonishing. I am 27 years old, and have a 7-year-old daughter. When I started using Kyron I weighed 153 pounds and felt awfully old and fat. In 7 weeks, I lost 35 pounds. I used to feel sluggish and always tired. Now I feel so much younger and gayer. My friends and my husband can't get over the change that has taken place in 7 short weeks."

# ACTION BY PACT NATIONS STIRS HOPE FOR PEACE

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

Great hope for the avoidance of another world conflict can be taken from the action of the 12 Atlantic Pact nations in setting up a permanent council to coordinate and direct anti-Communist defense measures both military and economic.

This development represents the strongest concrete expression of determination thus far exhibited by the combined Western powers in

their search for security against Red aggression. It is based on the decision that the sole way of winning Russian respect is by a display of power.

That is the only understandable international language of this atomic age of ours—an unwelcome thought, but true.

What It Means  
Let's analyze this Atlantic Pact move to see just what it means. We have here involved the United States, Canada, Britain, France, Italy, Norway, Denmark, Holland, Belgium, Luxembourg, Portugal and Iceland. Moreover a project is afoot to take Western Germany, with its vast Ruhr steel and coal facilities, into the fold.

Concentrated in this brotherhood is the bulk of the industrial productivity of the world. Military strength must be based on industrial power. The resources of the Atlantic powers are far and away stronger than those of the Russian bloc.

Naturally the agreement wasn't reached without misgivings and heartburnings. Some of the members, still suffering from the ravages of the last war, have been fearful that their economic positions wouldn't stand the strain of military costs. Some have feared that they would be used only as expendable bases

in event of war with Russia and her satellites.

However, the final judgment was that in unity lies strength. So the Atlantic Pact countries have agreed to establish a permanent high strategy board to coordinate the defense, both economic and military, against Red aggression. The job of this board is to block communism.

### Girl Scout Camp Plans Announced

The Camp Little day camp for local Girl Scouts will be conducted this year during the week of June 19 to 23. Application blanks have been issued by the Adams county Girl Scout Council to troop leaders and committee members for day camp counselors. It is requested that the application blanks be filled in and returned to the council office by May 26, so that the camp committee may plan a good program with the proper leadership in each phase, gleaned from the blanks the special training or experience of each individual counselor.

The regular monthly meeting of the Littlestown troop committee and leaders of the Brownie, Intermediate and Senior Girl Scout Troops, will be held on Monday evening in the fire engine house at 8:30 o'clock, when plans for the day camp will be discussed. It has been announced that more than 80 Girl Scouts have signified their intention of taking the swimming instructions this year, which program is expected to be arranged for July.

### Purple Heart Vets Install Officers

Retiring Commander J. Donald Lemmon was in charge of the monthly meeting of the Richard M. Palmer Chapter No. 303, Military Order of the Purple Heart, which was held Wednesday evening at the American Legion post home, East King street, Littlestown. Following routine business, the officers for the new year were installed by William H. Burkhardt, department junior vice commander, Shippensburg.

The officers installed included: Commander, Elmer W. Gall; adjutant, Ray T. Harner; senior vice commander, Ralph C. Shaffer; finance officer, James Packer; sergeant-at-arms, Kenneth L. Steick; chaplain, J. Donald Lemmon; welfare and service, Paul L. Wolff; Americanization, Ralph R. Ruggles, Jr., and historian, John R. Bloom.

Two other visitors, Charles A. Stouffer and Glenn Diehl, were present from Shippensburg, in addition to the installing officer, Burkhardt. The next meeting of the chapter will be held Wednesday, June 21, at 8 p.m., at the VFW post home, West King street.

Mobile, Ala.'s New Year's carnival originated spontaneously in 1831 and has been carried on since as an organized affair.

## ST. JOHN'S HOLDS REDEDICATION

"Community Night" was observed Thursday night at St. John's Lutheran church, the Rev. Kenneth D. James, pastor, in connection with the week of special re-dedication services being held by the congregation. The Rev. David S. Kammerer, pastor of St. Paul's Lutheran church, Littlestown, who is also president of the Littlestown Ministerium, preached the sermon and brought the greetings from his congregation.

The responsive reading which was Psalm 143 was led by the Rev. Dr. J. M. Myers, Gettysburg, supply pastor of Grace Lutheran church, Two Taverns, and St. Luke's Lutheran church, White Hall. Scripture was read by the Rev. Charles B. Rebert, secretary-treasurer of the Littlestown ministerium, and prayer was offered by the Rev. Frank E. Reynolds, pastor of Redeemer's Reformed church. The benediction was pronounced by the Rev. Harry B. Simons, pastor of Centenary Methodist church. Each of these four pastors also brought greetings.

Special music for the service included: Organ prelude "Traumerei," organist, Mrs. Luther Myers; vocal trio, "The Green Cathedral," Mrs. L. Robert Snyder, Mrs. Paul Kammerer and Mrs. Edgar E. Yealy; offertory, "La Chanson" and postlude, "Avonlea March," by the organist.

Tonight services preparatory to Holy Communion will be held at 8 o'clock, when the Rev. Dr. Harry Hursh Beidleman, Hanover, will be the guest preacher. Dr. Beidleman, who is pastor of St. Matthew's Lutheran church, Hanover, was also the pastor of the Rev. Mr. James when he entered the ministry.

### PASTORS TO BROADCAST

## HS SENIORS IN WASHINGTON

Accompanied by Supervising Principal Paul E. King and Miss LeOra Held, English teacher and dramatics director, Littlestown Junior-Senior high school, the members of the senior class of the Littlestown high school left early Thursday morning by bus for the annual senior class trip to Washington. They plan to arrive home sometime this evening. While in Washington, the Hotel Commodore is their headquarters.

Among the places visited on Thursday morning were the Washington Cathedral, the Capitol and Supreme Court buildings, the Botanical gardens and the Washington monument.

After a picnic lunch at Haines Point, they visited on Thursday afternoon the Bureau of Printing and Engraving, the National Art gallery, Smithsonian Institute, Aquarium and the Lincoln and Jefferson memorials. After supper they visited the National airport

and the Library of Congress and concluded the day's events by attending a show.

This morning they included in their itinerary the Pan American building, Folger Shakespeare library where Miss Anna Mary Riden, an alumnae of Littlestown high school is employed; the National Red Cross, the D.A.R. and Corcoran Art gallery.

This afternoon, they crossed the George Washington Memorial bridge and visited Arlington cemetery, Lee's Mansion and Alexandria, Va. They then went to Mt. Vernon, where a class picture was taken. Returning to Washington, they will visit the Pennsylvania railroad station and return home tonight.

## My First Anniversary

Thanks to the many persons who patronized me during my first year in the General Insurance business in Littlestown and Adams County (formerly the Howard G. Blocher Agency). I solicit the continued patronage of old customers as well as the patronage of new customers.

I am now equipped to write any kind of insurance, whether it be fire, life, or in the broad field of casualty, including bonds and liability of all types, auto, hospitalization, and accident and health.

**"YOU HARDLY KNOW THE ROAD IS THERE!"**

You won't be the first to say that—not by a long shot.

One of the first things you notice, when you step from another make of car into Buick, is the wonderful difference in the Buick ride.

There are good technical reasons, if they interest you...

Soft coil springs all around, the gentlest type of spring man knows how to make.

A stout torque-tube, acting like

the husky keel of a battleship to steady the whole carriage.

Low-pressure tires on wide, Safety-Ride rims, that stop heel-over and sway on curves.

Firm, sure, quick-acting shock absorbers, promptly snubbing the after-bounce of the bigger bumps.

The important thing is what these all add up to.

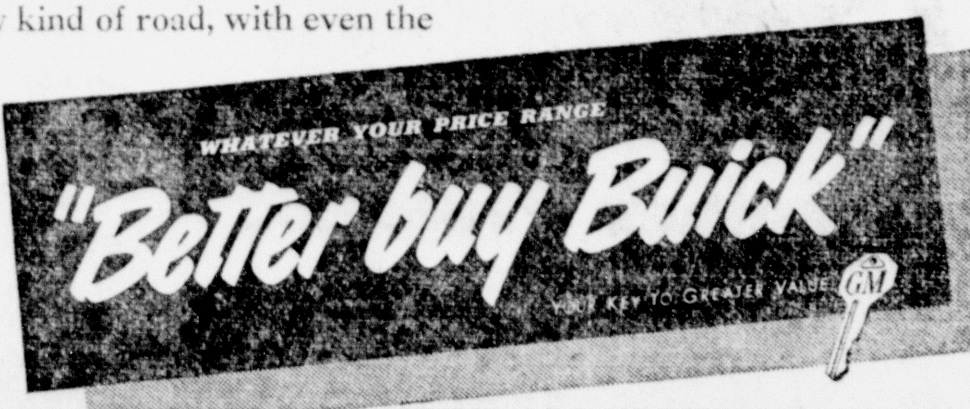

Freedom at last from jounce and jiggle. A level, floating, road-free passage over almost any kind of road, with even the

worst of them tamed and gentled as never before.

Add Fireball power to all this—the roominess of wide, deep seats—the lightness of Buick controls and the liquid silkiness of Dynaflo Drive\*—and you have a car just too good to miss.

Come try one, won't you? Your Buick dealer will be delighted to demonstrate without obligation—delighted to show you that if you can afford a new car, you probably can afford a Buick.

## TAFT SAYS GOP "IMMORALITY" CHARGE STANDS

Washington, May 19 (AP)—President Truman's refusal to discuss Republican charges of "political immorality" in his administration was taken by Senator Taft today as showing that the charges stand undisputed.

Taft, Ohio Republican who raised the accusation, referred to the no-comment stand taken by Mr. Truman at a White House news conference yesterday.

The President, meeting the press for the first time since his cross-country speaking trip, said he had not listened to Taft on a nationwide radio hookup Tuesday night nor read Taft's speech.

**Refuses To Comment**  
The speech was billed widely as the Republican reply to Mr. Truman. The President said he had been too tired from his long trip and too busy to hear or read it.

In it Taft said the "political immorality" of the Truman administration has shaken the confidence of the people in their government.

He also said Mr. Truman "accused

his opponents indiscriminately of greed and privilege but he said not a word about greed and privilege — and crime — in his home bailiwick of Kansas City or in the White House itself."

Mr. Truman refused a Chicago Tribune reporter's request for comment, cracking that the Tribune would make all the comment necessary on that.

**Banters With Newsmen**  
The President bantered with newsmen about the Pennsylvania Republican primary election and said he is taking no part in a South Carolina Democratic senatorial contest.

Governor Duff won the Republican nomination for senator in Pennsylvania by besting "old guard" GOP forces led by Joseph R. Grundy. Asked about this, Mr. Truman said he imagines Duff is happy but he personally is for the Democrats. The President said he will wait until the final November election to see whether he is happy about the Duff victory. Duff's Democratic opponent is Senator Myers, who has won the praises of Mr. Truman.

Every home sewer should have the Spring 1950 Fashion book, just off the press. It shows a wide variety of the season's popular fashions; designs for all the family — tiny tots, little girls, growing girls, juniors and misses, mature and larger-size women. It's the most complete collection you'll find in any pattern book. Per copy price is 20c.

**EGG PORTRAITURE**  
—Graham Dale, of Hollywood, uses eggs instead of canvas for personality portraits. Other materials serve to complete characteristics of each subject.

lodge will be held at the South Mountain Fair grounds June 18. Governor Smith reported. Transportation will be provided by bus throughout the day and the lodge home will be closed for the day. Last year about 2,900 were present for the picnic. Officers were di-

rected to make arrangements for the 1951 picnic.

Purchase of new uniforms for the softball team was authorized. A \$10 donation was made to the Gettysburg Memorial Day committee.

Governor Smith urged a large attendance at the district meeting to be held June 4 at Reading. A bus will be chartered if a sufficient number

of members wish to attend.

A total of \$155 was authorized to be paid in sick benefits to six members who had been reported ill for various periods of time.

Armed Forces Day and National Defense Week were observed. G. Henry Roth spoke and motion pictures of armed forces activities were shown.

## HEADQUARTERS FOR SHERWIN-WILLIAMS PAINTS

**KEM-GLO**

TRADE MARK  
THE MIRACLE-LUSTRE ENAMEL THAT LOOKS AND WASHES LIKE BAKED ENAMEL

Flows on freely, leaves no brushmarks. Dries in 3 to 4 hours leaving your walls and woodwork smooth and lustrous. As easy to wash as your refrigerator! Quarts and gallons in 10 lovely colors; pints in Stay-white only.

Guaranteed by God Housekeeping  
\$7.98 Gal. \$2.39 Qt. \$1.39 Pt.

**WHY YOU'LL PREFER KEM-GLO**

KEM-GLO's plastic-smooth surface resists stains, smudges, scuffing . . . withstands hot grease, boiling water. Can be washed hundreds of times without losing its lustrous beauty.

SHERWIN-WILLIAMS  
**PORCH & FLOOR ENAMEL**

Smart...colorful...beauty that's "welcome" on any porch or floor! One easily applied coat of this lustrous enamel gives good looks that last for seasons-on-end! Unaffected by severest weather! Resists heavy traffic!

## Now SWP Is Weather Protected — It's WEATHERATED

SWP House Paint is weatherated against excessive loss of gloss, high dirt collection, uncontrolled chalking, checking and cracking, rapid erosion and color fading. It must rate high on its ability to resist these destructive factors before it is permitted to bear the Sherwin-Williams label.
